PORTO RICO

POPULATION—PORTO RICO

NUMBER AND DISTRIBUTION OF INHABITANTS

Total population.—The island of Porto Rico was formally surrendered by Spain to the United States in October, 1898, and by the Treaty of Paris, signed December 10 of the same year, at the close of the Spanish-American War, was ceded to the United States, together with Vieques, Culebra, and other small adjacent islands.

According to the Fifteenth Census, taken as of April 1, 1930, the population of Porto Rico is 1,543,913, which represents an increase of 244,104, or 18.8 per cent, since 1920. The following summary shows the population of Porto Rico as enumerated at the Federal decennial censuses of 1930, 1920, and 1910, at the special census taken under the direction of the War Department in 1899, and at nine earlier censuses taken at irregular intervals between 1765 and 1887:

Municipalities.—Porto Rico is divided, for the purpose of local government, into 77 districts, called municipalities. Each of the islands of Culebra and Vieques constitutes an entire municipality, and the remaining small adjacent islands form parts of municipalities. (See Table 3.) Of these 77 municipalities, only one (Cabano) has been organized from part of another since 1920.

Density of population.—The gross area of Porto Rico, land and water, including the adjacent and dependent islands, is 3,435 square miles. The average number of inhabitants to the square mile in 1930 was 449.5, as against 378.4 in 1920 and 325.5 in 1910.

Minor civil divisions.—The political units into which Porto Rico's municipalities are divided are the barrios. Cities and towns, which occupy the closely settled area, have no form of government distinct from that of the municipality to which they belong. In the municipality of San Juan all the barrios are urban in character, the city being coextensive with the municipality. In most of the smaller municipalities, a single barrio, usually designated as "pueblo," constitutes the town settlement. In other municipalities the town is composed of two or more barrios.

In addition to the above-mentioned minor civil divisions, there are in the municipality of San Juan one military reserve and one naval reserve (radio station), and a naval radio station is located in the municipality of Cayey.

Table 4 shows the population of Porto Rico by municipalities and barrios. Under the name of each municipality is first given that of the town from which the municipality is named, together with the names of the barrios, if more than one, which it comprises. The remaining barrios follow in alphabetical order.

Principal places.—Porto Rico has two cities, of which San Juan, with a population of 114,715, ranks first, and Ponce, with 53,430 inhabitants, is second in size. In addition, there are 75 towns. (See Table 5, p. 1263.)

The following summary shows for each city or town having a population of 5,000 or more inhabitants in 1930, the population at each of the last three censuses and the percentage of increase:
